

### **The Washington State Death with Dignity Act (RCW 70.245)**

*Warm Beach Senior Community* is a community of faith and as such we believe that each life is dear to God. We also believe that God alone numbers our days and therefore we do not participate in the Washington Death with Dignity Act.

We have a campus chaplain and social services staff who serve as resources when our residents face end of life decisions. If a resident desires to pursue action under the Death with Dignity Act, our staff will assist in the transfer of records and coordination of transfer to a facility that does participate under this Act.

We encourage discussion of these important issues with personal physicians, family and pastoral support.
